Evidence for God

Did you Know?

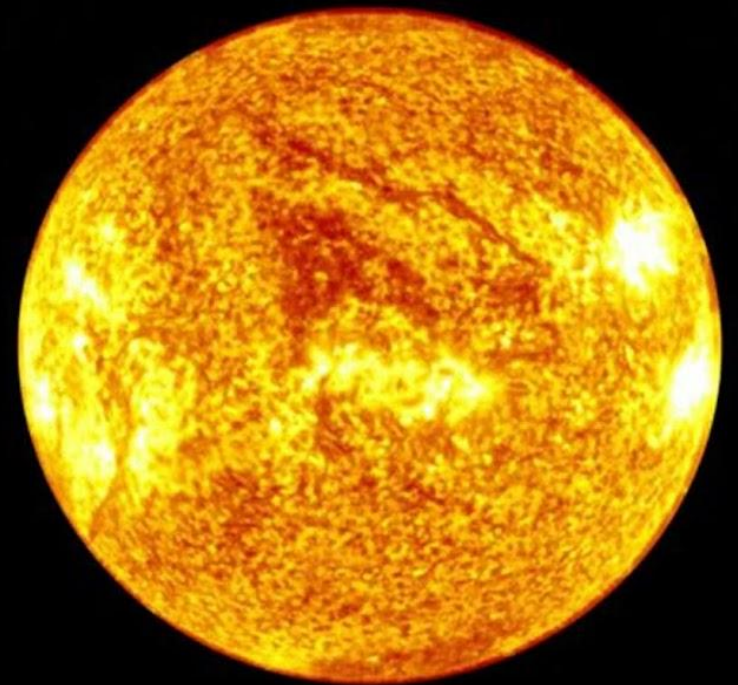

- Sun & Earth are at the right distance for life to exist. (152,000,000 km). Sun powers photosynthesis for life.
- Tilt of 23.5° gives Earth its seasons. 1 million Earths could fit in the sun.
- Moon is $1/400^{\text{th}}$ size of sun; the sun is 400 times farther so they appear same.
- Moon's gravity gives Earth the tides which clean the ocean shores. The moon's tidal energy could supply all of humanity's needs.

Evidence for God

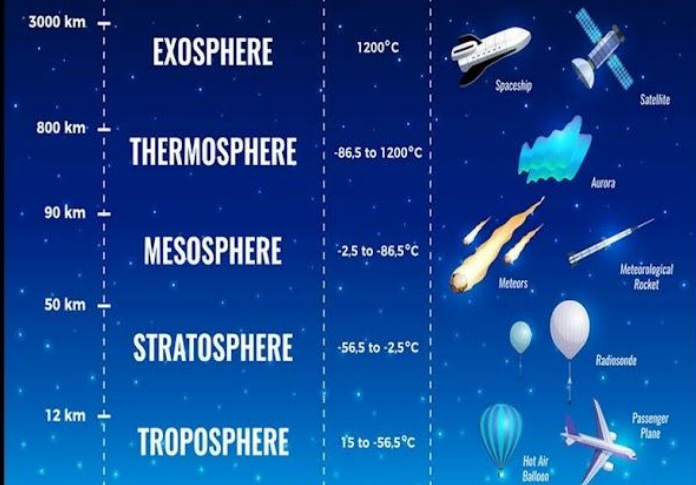

Did you Know?

- Earth is protected by the magnetic field from harmful solar and cosmic radiation.
- The atmosphere has oxygen to support life. The thermosphere protects us from UV radiation and where the northern lights can be seen. The mesosphere protects us from 40 tons of meteors which fall to earth each day.
- Earth's soil supports plant and animal growth and filters water from surface to water table.

The Earth

LAYERS OF EARTH'S ATMOSPHERE

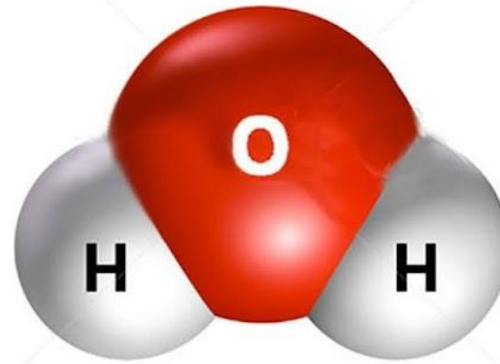

Evidence for God

Did you Know?

- Water is H_2O since there is one oxygen atom and 2 hydrogen atoms. Ice is less dense than water and floats instead of sinks. The densest temperature of water is 4°C , meaning fish and other aquatic species can live on the bottom even in the coldest weather.
- Water has a high specific heat capacity (takes a long time to heat & cool) allowing people living along water to have milder temp.
- Without water, life as we know it would not exist!

Water

Evidence for God

Did you Know?

- Our oceans cover more than 70 percent of the Earth's surface.
- The water cycle begins in the oceans bringing fresh water to the land.
- Most life on Earth (about 94%) is aquatic.
- Over 70 percent of our planet's oxygen is produced by the ocean.
- 3 billion people rely on fish as a main source of protein.

The Sea

Evidence for God

Did you Know?

- Groundwater is formed when rainwater seeps (infiltrates) into the ground and saturates the ground underneath.
- Of all the useable freshwater in the world, about 97% of it is groundwater. Groundwater may be near the Earth's surface or as much as 9 Km deep underground.
- The depth of the water table can vary depending on the time of year. The water table rises in the late winter and early spring.
- In drier parts of the world where drinkable surface water is not available, people have survived for thousands of years by digging wells.

The Springs of Water

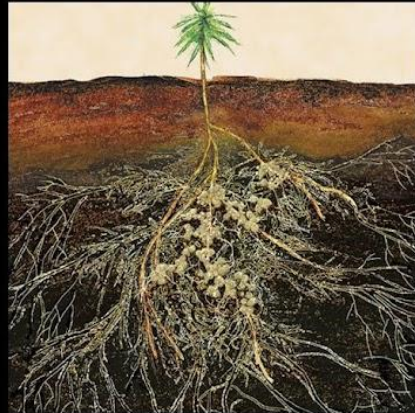

Evidence for God

Did you Know?

- Bees drink nectar, plant transmits pollen.
- The Oxpecker bird eats ticks and rhino gives a ride.
- Shrimp cleans home with goby security.
- Algae gets a home on camouflaged sloth.
- Tarantula guards frog which guards eggs.
- Mycorrhizae fungus gives water and nutrients to the photosynthesizing plants which gives fungus its energy from sugars.
- Sea anemone houses clownfish which gives off a high-pitched sound that repels predators of the anemone.

Symbiotic Relationships in Nature

Evidence for God

Did you Know?

- “DNA is like a computer program but far, far more advanced than any software ever created.” Bill Gates, The Road Ahead.
- DNA is made up of 4 letters called nucleotides and 3 of them in a row are called a codon. The codons code for amino acids and start/stop.
- DNA is packaged into chromosomes like books. The entire genome is like a set of encyclopedias for each and every organism that has ever lived on earth. Literally, trillions of creatures have been made with their own set of encyclopedia-like DNA called a genome.
- This model of DNA for a whole human genome if DNA were this size, the DNA for just one person would go around the entire earth 1.64 times. (66,000 km long)

*makes His sun rise on the evil
and on the good,
AND sends rain on the just
and on the unjust.*

Look at the ravens.
They don't plant or
harvest or store food in
barns, for God feeds them.
And you are far more
valuable to him than any birds!

~Luke 12:24 (NLT)

Said the Robin to the Sparrow:
"I would really like to know,
Why these anxious human beings
Rush about and worry so?"

Said the Sparrow to the Robin:
"Friend, I think that it must be
That they have no Heavenly Father,
Such as cares for you and me."

Imagine that you stay at Will and Jada Smith's Mansion in California for a Week

- You eat the finest chef-prepared meals from their pantry.
- You swim in their huge swimming pool, play tennis and soak in their Jacuzzi.
- You watch a great movie in the private theatre and at the end of the day fall asleep in the guest room's large king-size bed and have a beautiful sleep. At the end of the week, while eating breakfast you see a "Thank you" card and are asked to write a note for Will and Jayda Smith. However, you tell people that you do not believe Will and Jada Smith exist and you refuse to sign the Thank you card.
- What would you think of someone who refused to thank the generous offer from the movie stars?
